FEBRUARY, 2019 **VOLUME 33** **EDITION 1**

It is that time of year again!

Saturday, March 23th 11am Rain date 24th

Bring anything you think would help with the clean up and repairs needed at the Post.

We will be picking up trash and making repairs to the Post #338 as well as a few minor repairs.

Food and Beverages will be provided. All donation will be appreciated to make the post beautiful.

If veterans have qualifying military service, they get credit for additional wages, ultimately raising their monthly Social Security payment.

When veterans apply for retirement or disability benefits, Social Security checks their records. If they have qualifying military service, they get credit for additional wages for their military service. These credits are added to the veteran's lifetime earnings record - not to the veteran's monthly benefit check. But because Social Security uses lifetime earnings as the basis for figuring out a person's retirement benefits, the credits can ultimately raise the monthly payment.
